## BOARDING ADMISSION FORM

Owner: \_\_\_\_\_  
 Client ID: \_\_\_\_\_  
 Pet Name: \_\_\_\_\_  
 Patient ID: \_\_\_\_\_  
 Breed: \_\_\_\_\_

Date: \_\_\_\_\_  
 Time: \_\_\_\_\_  
 Sex: \_\_\_\_\_  
 Color: \_\_\_\_\_  
 Age: \_\_\_\_\_

In order to help maintain a healthy environment, we require that all boarding animals are current on vaccinations and free of parasites (fleas, ticks, worms, etc.) or they will be treated upon entry at owner's expense. The necessary vaccines and tests include rabies and fecal check for cats and dogs, FVRCP/FeLV/Calici for cats, and DHPP-L and bordetella for dogs. **It is important that your canine companion is vaccinated for bordetella within six months and at least 2 weeks prior to boarding with us to provide the best protection against tracheobronchitis.** Dogs that cannot be vaccinated for bordetella 14 days in advance of boarding are not protected from contracting this highly contagious virus. \_\_\_\_\_ (Initials)

It is important to note that stress induced by being separated from family, being in an unfamiliar environment, and change of routine can impact an animal's ability to combat disease. *Please be aware that puppies and kittens that have not completed their initial vaccine series are not fully protected against the common viruses for which they are receiving inoculations.* \_\_\_\_\_ (Initials)
